WHAT TO BRING

ELECTRIC SCOOTER ADVENTURE

-Suitable outdoor clothing

-Closed shoes are essential

-**Sun glasses** can help keep dust/dirt out of your eyes (plus you'll look cooler on the route!)

-Bringing a bag on route? Make sure it is a small backpack style

-**We recommend short waist length jackets**
Long jackets; can hang down into the wheels and get muddy; make sure they can zip up

If it's rainy/wet: 🌧️

-Bring clothes that can get **muddy** and/or **waterproofs**
-During/soon after heavy rain or when the ground is waterlogged/wet grass = a lot of spray off when we drive!
-We can drive through thickly mudded areas (which can spray up onto you as you drive) so clothes to get very muddy are essential (changing space availabile)

If it's hot: 😎

-We don't provide drinks; feel free to bring your own (bring a bag!)
-Sun hats/caps recommended (they will fit under our helmets)
-Sun cream recommended!
-When it's dry; it can be dusty (Hay fever medication is recommended for those who need it!)

If it's cold: ❄️

-**Warm gloves very important** (your hands will be exposed on the handlebars)
-Wrap up very warm (some areas are windy and we are outside for +-1.5hrs)
-Beanie hats can fit under our helmets
being cold is a reason you may not enjoy your adventure!

WHAT TO BRING

AXE THROWING SESSION

- 👟**Closed shoes are essential**

-make sure suitable for our outside range (small amounts of dirt)

- 🧥Weather-appropriate clothing — it’s an all-weather activity!
- 👕 Avoid baggy clothes that might interfere with throwing
- 💇 Tie back long hair
- 💍 Remove loose or dangly jewelry (especially earrings)

SCOOTER CONTROLS

FEET
keep both feet on the scooter at all times
do not ever put your feet down (even if you feel wobbly)

TURN
point the front wheel where you want to go
don’t lean to turn, just push and pull with your arms

GO
right hand twist to go forward; be gentle it can be sensitive
always release the accelerator if you want to stop

STOP
use the brake handle on the left hand side
make sure you’re not accelerating at the same time

POWER
round switch on right hand side, make sure turned off when stopping

DRIVING TIPS

-left hand for braking, right hand for accelerating
-scooter will go where front wheel is pointing; don’t let it get wobbly on the bumpy sections
-slow down to turn (less power), scooters are stable but not impossible to tip
-slow down on downhills (use the left hand brake, do not accelerate too much); turn off your power if you struggle to go slowly on the accelerator
-leave enough space around other scooters; don’t cut up/ turn in front of others
-leave enough space around obstacles and to stop
-scooter wheels are wider at the back than the front

-passengers sitting at the back must hold on around the waist of the driver

RULES OF THE ROUTE

-keep all 3 wheels on the ground
(no wheelies/lifting wheels)
-stay sitting down (don’t stand)
-stay behind your guide
-no contact between scooters, no racing or unsuitable driving
-overtake only when safe to do so
-we charge for a heavy crash or tip of scooter; please drive carefully

All groups must follow our guides instructions + adventure rules
We will remove participants from tour who do not respect the rules;
