[WE CAN ONLY SAY SO MUCH... SEE OUR REVIEWS HERE](#)

Whether you're a **seasoned rider** or a **beginner** looking for an adventurous escape,

whether it's a weekend outing, a holiday treat, or just some fun time out in nature, Baboon Adventures promises an **amazing and unforgettable day out!**

# THE ADVENTURE

On arrival; meet your guide, sign in and receive a helmet.

Join a safety brief and a test ride with clear instructions from our guides. (+-20mins)

The controls are simple and suitable for **all levels of experience**. Get confident in our test ride field before heading on tour.

Your guide will lead you around the historic 3000 acre Kingsclere Estate. Drive over 10km of grassy farm paths, muddy tracks, woodland trails, private roads and more, with some awesome sights.

See the local farming and the beautiful Hampshire hills.

Test your skills down our **technical trails** (optional for confident groups) and explore some of the woodlands. Try out the **awesome electric acceleration** on the open sections and try full speed.

Keep your eyes open for some of the wildlife; deer, birds of prey, farm animals and more.

Plenty of chances to stretch your legs and take some snaps; on route our guides will take those insta-worthy **pictures and videos** too.

## WHO CAN TAKE A PASSENGER

- Any age driver (12yrs and up) can take a passenger as long as they are driving confidently.
- Smaller drivers may find it more difficult with a bigger passenger (as this requires more arm and body strength to turn).

## WHERE DO PASSENGERS SIT

- Smaller passengers** can sit in front of the driver (so long as the driver can reach and see sufficiently over their head).
- Taller passengers** can sit behind the driver (they must have legs long enough to reach the foot panels to sit here); and can hold on tightly around the waist of their driver.
- Passengers may be able to have a try on the controls (with the driver assisting)  
Our guides can advise on all this during test ride + on tour.

## HOW THE SCOOTERS WORK

A combo between a quad and a motorbike. No gears; all electric (twist right hand to go, left hand to brake).

They can take a few minutes to get used to. Our staff lead a full test ride session to allow everyone to get comfortable with the controls.

## UNDER 18S

- Under 18s must have supervising adult (18+) on tour with them.

### 1 ADULT CAN SUPERVISE UP TO 8 UNDER 18s

- 16 and 17yr olds; supervising adults do not need to be on tour with them (as long as they're on site).

# WHAT TO BRING

-Suitable outdoor clothing

-Closed shoes are essential

If it's rainy/wet: 

- Bring clothes that can get **muddy** and/or **waterproofs**
- During/soon after heavy rain or when the ground is waterlogged/wet grass = a lot of spray off when we drive!
- We can drive through thickly mudded areas (which can spray up onto you as you drive) so clothes to get very muddy are essential.

(changing space available)

If it's cold: 

- **Warm gloves very important** (your hands will be exposed on the handlebars).
- Wrap up warm (some areas are windy and we are outside for +/-1.5hrs).
- Beanie hats can fit under our helmets

-**Sun glasses** can help keep dust/dirt out of your eyes (plus you'll look cooler on the route!)

-**Bringing a bag on route? Make sure it is a small backpack style**

-**We recommend short waist length jackets**

Long jackets; can hang down into the wheels and get muddy; make sure they can zip up

If it's hot: 

- We don't provide drinks; feel free to bring your own
- Sun hats/caps recommended (they will fit under our helmets)
- Sun cream recommended!
- When it's dry; it can be dusty (Hay fever medication is recommended for those who need it!)

If its dark:   
**(Twilight Adventures)**

- Warm gloves are even more important as the temperature drops
- Wrap up very warm

# SCOOTER CONTROLS

## FEET

keep both feet on the scooter at all times  
do not ever put your feet down (even if you feel wobbly)

## TURN

point the front wheel where you want to go  
don't lean to turn, just push and pull with your arms

## GO

right hand twist to go forward; be gentle it can be sensitive  
always release the accelerator if you want to stop

## STOP

use the brake handle on the left hand side  
make sure you're not accelerating at the same time

## POWER

round switch on right hand side, make sure turned off when stopping

# DRIVING TIPS

- left hand for braking, right hand for accelerating
  - scooter will go where front wheel is pointing; don't let it get wobbly on the bumpy sections
  - slow down to turn (less power), scooters are stable but not impossible to tip
  - slow down on downhills (use the left hand brake, do not accelerate too much); turn off your power if you struggle to go slowly on the accelerator
  - leave enough space around other scooters; don't cut up/ turn in front of others
  - leave enough space around obstacles and to stop
  - scooter wheels are wider at the back than the front
- passengers sitting at the back must hold on around the waist of the driver

# RULES OF THE ROUTE

- keep all 3 wheels on the ground (no wheelies/lifting wheels)
- stay sitting down (don't stand)
- stay behind your guide
- no contact between scooters, no racing or unsuitable driving
- overtake only when safe to do so
- we charge for a heavy crash or tip of scooter; please drive carefully

**All groups must follow our guides instructions + adventure rules**

We will remove participants from tour who do not respect the rules;
